

In the claims:

Please add claims 6-18 as follows.

1. (original) A device for display of gifts suitable for mailing the gift comprising:

    a gift holding box, said box having a transparent surface;

    a mailing box into which said gift holding box nests, said mailing box having a cutout, wherein when said gift holding box is inserted into the mailing box, a viewer may look through said cutout, through said transparent surface and view an item contained within said gift box; and

    a removable opaque panel fitting inside the mailing box over the transparent surface of the gift holding box, said panel retained within said mailing box covering said cutout thereby blocking the cutout.

2. (original) The device of claim 1 further including a display panel inside of said gift box viewable through the window when the opaque panel is removed.

3. (original) The device of claim 2 further including a metal sculpture mounted on the display panel.

4. (original) The device of claim 1, wherein said removable opaque panel includes printing.

5. (original) The device of claim 1, wherein the mailing box includes printing.

6. (new) The device of claim 1, wherein said gift holding box is rectangular.

7. (new) The device of claim 1, wherein said gift holding box is entirely transparent and six-sided.

8. (new) The device of claim 1, wherein said gift holding box includes a transparent top section and a transparent bottom section.

9. (new) The device of claim 1, wherein said mailing box is uncovered for mailing.

10. (new) The device of claim 4, wherein said printing of said removable opaque panel includes sender identification lines.

11. (new) The device of claim 4, wherein said printing of said removable opaque panel includes mailer identification lines.

12. (new) The device of claim 1, wherein a metering stamp is disposed on said removable opaque panel.

13. (new) The device of claim 1, wherein a stamp is disposed on said removable opaque panel.

14. (new) The device of claim 1, further including a card inside of said gift holding box viewable through the window when the opaque panel is removed.

15. (new) The device of claim 14, further including an envelope inside of said gift holding box viewable through the window when the opaque panel is removed.

16. (new) The device of claim 1, wherein said gift holding box is displayed separately from said mailing box.

17. (new) The device of claim 1, wherein said gift holding box is sold separately from said mailing box.

18. (new) The device of claim 1, said gift holding box having a second surface opposing said transparent surface, wherein when said item is intended to be viewed through said cutout and said transparent surface, said gift holding box is inserted into the mailing box and said removable opaque panel is retained inside the mailing box and disposed over the second surface, and when said removable opaque panel is intended to be viewed through said cutout, said gift holding box is inserted into the mailing box and said removable opaque panel is retained inside the mailing box and disposed over said transparent surface.
